☐ Unknown

Description of Damage to Aircraft and Other Property *(Use additional sheet, if necessary.)*

Substantial damage to hull on water impact. Wings, and tail section substantially damaged during recovery. All electrical components were destroyed when aircraft submerged.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink.)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On the morning of Sept 6, 2025, my friend and I took off from my home airpark Flying Harness Farms 37FL for a short flight to the Suwannee River. On takeoff on runway 18 easterly crosswinds, took my focus from my checklist routine of raising the wheels shortly after I achieve positive rate of climb. My attention failed to return to the checklist. Following the 5 mile flight to the river, I descended to the water for a quick touch and go. Upon main gear impact the plane nosed over and sank to wing level quickly. My passenger and I were able to unbuckle and exit the plane quickly. The plane floated at wing level and we drifted south with the current. A passing boater came to our aid and towed us about one mile south to the Wannee Landing boat ramp. The wing was still floating, but the tail had sunk. The river current swept us past the ramp and the plane sank to a vertical position. It then rolled belly up. Unable to tow it back upstream to the ramp, it was tied to a dock where it floated upside down. The FAA and NTSB were notified and permission given to remove the plane from the river and trailer home. I called Saltwater Builders, a marine construction company, and they sent their crane barge to lift the plane from the river and place it on the ramp. The wings were removed, and the plane was trailered to my hangar. I believe the aircraft is damaged beyond repair.

OPERATOR/OWNER SAFETY RECOMMENDATION *(How could this accident/incident have been prevented?)*

Strick adherence to checklist.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on a separate sheet.)

Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No
 (If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)
