Description of Damage to Aircraft and Other Property (Use additional sheet, if necessary.)

Aircraft gear collapsed on landing, resulting in prop strike, and scraping of aluminum skin on runway.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink.)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On August 20, 2025, I was PIC of N8313N, a Beechcraft Baron.

- * I departed KSPG on an IFR flight plan.
- * After a normal takeoff, I noticed the alternator kick off and the battery started to discharge.
- * I reset both left and right main alternator switches. I then tried to reset the field current breakers for each alternator.
- * Tampa Approach asked me to reset the Transponder.
- * I also tried to reset each main alternator switch independently.
- * I asked Tampa Approach to abort flight to KPGD, and return to KSPG.
- * I canceled my IFR flight plan with Tampa Approach.
- * I selected Gear Down while still over the Bay.
- * I heard the gear motor running and gear extension noises.
- * I returned VFR to KSPG
- * Garmin PFD Flickered off, went black and then a few seconds later went into reboot cycle.
- * KSPG Cleared me to land on Rwy 07.
- * I acknowledged clearance, but it may not have transmitted, as KSPG Tower issued landing clearance again a second time.
- * I had already put gear down while heading back to KSPG.
- * I noted position of the tab on floorboard indicating gear down, but NOT green electrical light for gear down on dashboard.
- * I completed GUMPS checks, noting that:
 - 1) I had selected gear down prior to losing 2 way communications (While I believed that the battery still had power.)
 - 2) I had heard gear motor and gear extension noises
 - 3) I saw the mechanical indicator - physical tab on floorboards - indicating gear down.
- * As the airplane settled on runway 07, the gear collapsed, and the props stuck the ground.
- * I turned off the mags as the aircraft skidded to a stop on the runway.
- * I turned the fuel selectors to OFF.

I got out of the airplane.
