Description of Damage to Aircraft and Other Property *(Use additional sheet, if necessary.)*

Right wing struck tree, left wing struck a Mooney M20J tail section. both wings damage.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink.)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

dDeparted KOZW at 11:30 am EST for N07 Lincoln Park Airport. Due to the unsteady winds at N07 I did two go arounds.

On final (19) just short of the numbers the aircraft suddenly dropped to the ground bouncing to the right. When the aircraft touched the runway again I was headed for a runway light so I turned avoiding it and applying the brakes to slow the aircraft. The brakes were not able to bring the aircraft to a stop. Finally a tree in front of the right wing and the tail of an another aircraft in front of the left wing stopped the plane. There were no injuries to me or my wife. There were no gasoline leaks or smoke to indicate engine problems. The airport manager quickly showed up to access the situation and cordoned off the area.

Did a 19 final based on reported 11 winds at Essex County. I believe the unsteady winds at N07 shifted to a tailwind for 19 on final and a downdraft or windshear dropped the aircraft just short of the numbers. The terrain west of the airport may have had an effect on weather conditions at N07pply.

OPERATOR/OWNER SAFETY RECOMMENDATION *(How could this accident/incident have been prevented?)*

There was plenty of fuel on board to continue flying hoping the winds subsided so I could land in steady winds. Perhaps the Essex County Airport next door would have been a better place to land.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on a separate sheet.)Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No

(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)

No evidence as yet of any Mechanical Failure
