Description of Damage to Aircraft and Other Property (Use additional sheet, if necessary.)

Propeller damage and sudden stoppage of engine.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink.)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I was planning an early morning flight in my 1977 Grumman AASB N81317 on September 19, 2025 at KPYN. After preflight in my hangar, I started the engine and started to taxi the aircraft in a northerly direction. Before joining the taxiway I had confirmed that it was clear in both directions. Few seconds later my propeller tip impacted the end of the wing of Cessna 182 N2383X coming perpendicular in the direction of 060° from left to right. I was just turning on the AASB on my iPad fltph.go when the collision happened. The Cessna pilot stated that he did not see my aircraft coming on the taxiway. There were no injuries but my aircraft had a prop strike and the Cessna wing was damaged.

OPERATOR/OWNER SAFETY RECOMMENDATION (How could this accident/incident have been prevented?)

I should have reconfirmed a second time for ground traffic. And turned on my iPad AASB input before starting to taxi.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on a separate sheet.)

Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No
 (If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)
