Description of Damage to Aircraft and Other Property *(Use additional sheet, if necessary.)*

Our aircraft was struck while taxiing by another aircraft. Our aircraft suffered substantial damage to the right wing from a prop strike. The other aircraft damage was a prop strike.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink.)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

After completing normal preflight operations and briefing we taxied from behind the NW Hangars at KPYM. We were established on the taxi centerline and were taxiing at a normal controlled speed. We were struck by another aircraft while only a minute or so into our taxi. The other aircraft was turning onto the taxiway. Based on the shadows, solar glare (rising sun was directly above approaching aircraft), and field of vision while maintaining centerline of the taxi, I did not see the other aircraft until after impact. The other aircraft did not yield or stop, and impacted us.

OPERATOR/OWNER SAFETY RECOMMENDATION *(How could this accident/incident have been prevented?)*

The other aircraft could have seen us on the taxiway and stopped or could have stopped/yielded, prior to turning onto the taxiway.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on a separate sheet.)

Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No <i>(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)</i> Right wing will need to be replaced as a result of the impact.
