"Witness Report

Date: 9/19/25

Location: KPYM

Time: ~7 AM

Aircraft I was in: N2383X

Aircraft that hit us: N81317

I am a private pilot (SEL) with ~300 hours. I was sitting right seat next to Chris Howard who was PIC.

We were on a back taxiway (behind hangars) on the main portion of the taxiway. Chris was taxiing out to conduct a practice session.

N81317 piloted by Kabir Chuttani taxied his aircraft into the right side of N2383X. His prop struck our right wing. Our right wing sustained material damage. Both planes were towed back to their hangars. There were no injuries.
