Description of Damage to Aircraft and Other Property *(Use additional sheet, if necessary.)*

The right wing was bent and right elevator was damaged

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink.)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On Saturday, June 7 2025 about 2PM we departed a private grass strip near Furman SC. On board with me was a pilot/friend. Our destination was Ridgeland (3J1). Once in leveled flight I offered to a friend to fly the airplane, which he accepted. Once we had the airport in sight I asked if he wants to land the airplane. He accepted. The speed and approach were great. Upon initial contact, we bounced and the aircraft started sliding to the left and ended up ground looping in the grass resting on its right wing. I pulled the mixture and shut off the engine.
