NARRATIVE HISTORY OF FLIGHT (Please type or print in ink.)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

OPERATOR/OWNER SAFETY RECOMMENDATION (How could this accident/incident have been prevented?)

██████████ and I met on Sunday afternoon 9/28 for the first flight in his aircraft as well as a tailwheel sign-off. We did a pre-flight inspection and talked over a plan for the day. The plan was to depart to the SW to do maneuvers and get comfortable in the plane then come back into Johnstown to do landings. The plane had been fueled a previous day and we had done weight and balance on that same day. Tower asked us if we could do a mid field departure on 33 which would give us over 3700' of runway. ██████████ taxied E B and held short of 23 and did a run up. Contacted tower and taxied onto 23 and held short of 33 on 23. Once cleared, ██████████ taxied onto 33, gave the plane full power and started takeoff roll (I gave small input on rudder during takeoff roll) and took off shortly after Taxiway C and climbed to approximately 50 feet when the airplane stopped climbing. At this point we were just before the thousand foot marks. We immediately aborted climb out as the end of the runway dropped straight down into dense woods and we didn't want to risk continuing.

(I pushed the nose down reduced power momentarily and then added power back in before touchdown)

We touched down hard but I was surprised that the gear collapsed as I have landed other planes with similar force without problems. The airplane's gear collapsed- the left side collapsing more which caused us to slide of the left side of the runway

██████████ shut off all electrical as well as fuel and we both exited out of the left door and ran about 50' away.

We verified that we both were okay. I then called the Johnstown approach on the phone to see what we should do. They advised us to wait for airport fire to get there, so we did.
