Description of Damage to Aircraft and Other Property *(Use additional sheet, if necessary.)*

Prop Strike and engine damaged
 Engine Cowl damaged
 Nose Gear completely sheared off
 Windshield has a 6" hole in the co-pilot side
 Main Gears collapsed
 Both doors are damaged and will no longer shut fully
 Damage to the fuselage where the Main Gears have collapsed

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink.)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Departed KDKX at approximately 13:00H EST with intended final destination of 5TN4. Working on Phase 1 test cards as aircraft is still in Phase 1 testing. After completing several tests successfully, went to KMNV to practice short field landings. Came in with full flaps, touchdown on the runway and was going down the runway when in an instant I was no longer on the runway. Not sure if I got hit with a crosswind or not. It happened so fast, I don't really know what went wrong but all of the sudden I started feeling bumps and tried to go to full power but I believe that the prop had already sheared and the aircraft would not lift off. The plane ran off the left side of the runway and came to a gentle stop in the grass. No injuries, no property damage, just damage to the aircraft as stated above.

OPERATOR/OWNER SAFETY RECOMMENDATION *(How could this accident/incident have been prevented?)*

I really don't know as I am still very confused about how the plane ran off the side of the runway.
