Description of Damage to Aircraft and Other Property *(Use additional sheet, if necessary.)*

No damage to property, aircraft struck trees and is a total loss.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink.)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Regrading the incident 03/01/2026 shortly after 1600 hours at 8NC9, after a thorough pre-flight I back taxied the aircraft on runway 33 and then did a run up where everything checked out. After the run up I departed the runway with a nose high attitude and the wings were flying but the tail was not. The aircraft made a left turn which I was unable to correct and that pointed me into the trees on the west side of the runway. Once the aircraft made impact with the trees I immediately pulled back the throttle and braced for impact. Wreckage was contained in the trees.

OPERATOR/OWNER SAFETY RECOMMENDATION *(How could this accident/incident have been prevented?)*

Pilot could have obtained transitional training in this specific aircraft.
