Description of Damage to Aircraft and Other Property *(Use additional sheet, if necessary.)*

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink.)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

OPERATOR/OWNER SAFETY RECOMMENDATION *(How could this accident/incident have been prevented?)*

Civil Air Patrol recommends reinforcing standardized takeoff briefings and positive exchange of controls procedures during all instructional and evaluation flights. Emphasis should be placed on ensuring that both pilots have a shared understanding of abort criteria, throttle management expectations, and instructor intervention triggers during the takeoff roll. CAP will also review and strengthen training materials on directional control during takeoff and on the instructor's role in monitoring and overriding control inputs when necessary. These steps are intended to reduce the likelihood of control input conflicts and improve coordination during critical phases of flight.
