NARRATIVE HISTORY OF FLIGHT (Please type or print in ink.)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

KG50, 9:30 AM, 6/27/26. After buckling up and starting the plane, we realized the checks were still on the left main tire. The plane barely started so I opted to throttle back, have the student hold the brakes while I removed the checks. The plane then rolled forward as there is a slight decline/slope, resulting in contact the side of the hanger in front of us.

OPERATOR/OWNER SAFETY RECOMMENDATION (How could this accident/incident have been prevented?)

We absolutely should have shut down the aircraft first before removing checks. Remedial training has commenced via the FSDO recommended pathways and company policy has been changed!

I HEREBY CERTIFY THAT THE ABOVE INFORMATION IS COMPLETE AND ACCURATE TO THE BEST OF MY KNOWLEDGE.
I understand that the information provided may be subject to public release.
