☐ In-Flight ☐ Fire at Unknown Time
☐ On-Ground ☐ Unknown

Description of Damage to Aircraft and Other Property *(Use additional sheet, if necessary.)*

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink.)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On 7/27/2026 I was training for a tail wheel endorsement and had a ground loop accident and damaged aircraft n291ca. I received instruction from [REDACTED] with Southern Maine Aviation out of the Sanford Maine airport (KSFM).

[REDACTED] provided me with the aircraft POH, the SMA tail wheel syllabus, FAA-H-8083-3C, a detailed training plan, and in person ground instruction. We had previously flown together in the aircraft with myself as a passenger.

We flew that morning with good weather with two landings and a go around.

We took a break and then flew again.

On my first landing after the break we had a great approach with appropriate airspeed. When we touched down I used far too much rudder input and swerved quickly to the right. I immediately applied too much correcting rudder input and we swerved immediately to the left. The tail of the plane came around abruptly turning us perpendicular to the centerline while skidding on the landing gear. The right wheel broke off and the right wing struck the ground. We immediately stopped.

[REDACTED] instructed me to shut the plane down and use the checklist. We exited the aircraft and called for assistance and to let others know not to use runway 32.

Luckily no one was hurt. I believe [REDACTED] gave me excellent instruction, information, and support before during and after the incident.

OPERATOR/OWNER SAFETY RECOMMENDATION *(How could this accident/incident have been prevented?)*

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on a separate sheet.)Was there Mechanical Malfunction/Failure? ☐ Yes ☐ No

(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)
