

NTSB RECORD OF CONVERSATION

Adam Gerhardt
Air Safety Investigator
GAA – General Aviation Accident Investigation

Date: 3/30/2015
Person Contacted: Patrick Tierney (San Diego FSDO)
NTSB Accident Number: GAA15CA021

Narrative:

The following excerpts are from an email conversation with a witness who reported the accident to the FAA inspector.

Witness Statement -

To Patrick Tierney (FAA Inspector):

On Sunday the 8th of March I was out on the ramp at Pacific Executive Aviation (located near the 27 end of the runway) about to get into a plane when I noticed N2030M coming over the threshold of runway 27. He appeared fast and was in a slight nose down attitude all the way down to the runway. He impacted the runway in this nose down attitude, hit the nose wheel first and proceeded to porpoise down the runway 3-5 times before veering left and exiting the runway onto the grass.
