Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Nose Gear Collapse
Splintered Wood Propeller
Cowling Damage
Left Flap Damaged from Runway Light
Firewall Damage at lower fitting
Possible Engine frame and mount

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

See attached personal statement and Ohio State Police Report.

RECOMMENDATION (How could the accident/incident have been prevented?)**Operator/Owner Safety Recommendation**

Based upon the altitude above the runway and the dramatic loss of lift I do not know if the landing could have been saved. Stronger right braking action might have kept A/C on runway but really did not have the time to react. After being on grass I think I tried to use brakes but they did not appear to have any effect, maybe it was the slightly damp grass and the slope of the grass to the left.
