Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Left wing sheared off at fuselage, right wing-tip, spinner & propeller as well as a small pine tree and siding on airplane hangar

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I performed a normal preflight inspection, taxied to runway 12 at the Poplar Grove Airport (C77), completed the run-up checklist and departed runway 12. I flew direct to Casa de Aero (68IS) entered the traffic pattern for runway 09 and made a normal approach and landing. I applied the brakes and the aircraft made an abrupt turn to the left exiting the runway. Attempts to correct with the right brake failed and I continued across a grassy area, a parallel taxiway and impacted a small tree, coming to a stop against a hangar.

RECOMMENDATION (How could this accident/incident have been prevented?)
