DAMAGE TO AIRCRAFT AND OTHER PROPERTY**Aircraft Damage**

- ☐ None ☐ Substantial
☐ Minor ☒ Destroyed
 ☐ Unknown

Aircraft Fire

- ☒ None ☐ Both Ground and In-Flight
☐ In-Flight ☐ Fire at Unknown Time
☐ On-Ground ☐ Unknown

Aircraft Explosion

- ☒ None ☐ Both Ground and In-Flight
☐ In-Flight ☐ Explosion at Unknown Time
☐ On-Ground ☐ Unknown

Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

tail boom was cut off, cabin destroyed, main rotors destroyed

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On June 25, 2015 I intended to pollinate a rice field approximately 2.25 nm NW of KELA. Pollination is the act of flying about 18 inches above the rice crop at 25mph to circulate pollen. After about 1.5 hours my iPad slipped onto the collective flight control, while dislodging it I must have inadvertently applied forward cyclic causing the nose of the helicopter to go down into the rice crop and crashing. Other causative factors could have been fatigue, stress and emotions. The morning of the incident we had to euthanize a very valuable horse that had been in our family for several years. My kids had won several buckles and saddles off of this horse. I had not slept very well prior to this event. We also ranch for a part of my income and it had been a very busy week. This incident should not be a negative reflection on Robinson helicopters. They build a high quality product and I feel that my aircraft was a superior machine. I consider it to be a great loss and only have myself to blame.

RECOMMENDATION (How could this accident/incident have been prevented?)**Operator/Owner Safety Recommendation**

I did not have the iPad secured to my kneeboard because there was a glare on the screen. I should have used another method to monitor my speed or secured the iPad. In hindsight I was too exhausted to perform the flight and should have asked for help from another pilot

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)

Was there Mechanical Malfunction/Failure? ☐ Yes ☐ No

(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)
