I was taking off alongside the road, about 9 pm, July 1, 2015. I was 16 miles west of Gettysburg, SD. There had been smoke or haze in the area all day. Departure to the east looked the best. There had been an east breeze earlier. There were mobile homes and a c-store on the left or north side and a power line on the south side. I started to the east, was building speed, when I struck the two power lines (of the 4 lines) across the road. I straightened the machine and touched down on the road, still traveling east with some forward speed. I tried to control the skid as best I could and drifted to the side of the roadway and came to a stop. The engine remained running until I did the shut down.
