NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On July 22, 2015 I was flying a night cross-country from Eagle Creek (KEYE) to Mount Vernon (KOVO), departing around 21:30. Before arriving to KOVO I listened to the weather; the winds were calm and decided to land on runway 23. Coming in on final my airspeed was around 72kts. I underestimated how high I was and when I came in to touchdown the aircraft landed on the main gear and bounced back up and landed on the nose wheel. It was a hard landing, bouncing a couple of times. It rolled for a bit and then I realized something was wrong when braking became difficult. I got off the runway and taxied back to the ramp and parked it. I then stepped out and inspected the nose wheel and saw the wheel was flat. I then proceeded to call my instructor, it was around 22:20, and told him I had a flat tire. After speaking with him another instructor contacted me and told me he would be on his way. After speaking to them I got out of the airplane and inspected it some more, and noticed that one end of the propeller was damaged; I took some material off the end. I then waited for my instructor to come get me.
