Date Report Received
10/06/2015

On September 30th at 1800 In reference to the incident at 8V7, I the pilot Trevor Shaw was landing on runway 17 in Springfield Co and there was an 11-knot crosswind out of the east according to the automated weather at 8V7. It was a VFR Flight with no flight plans just a local pleasure flight. I had departed Johnson KS KJHN 30 min earlier after going there to get fuel. I was in a 1950 Cessna 170A, I was setting the left wheel down first with correction into the wind. I was having trouble keeping aircraft straight when it was rocked on right wheel then it appears the right wing struck the runway and in turn skid nose cone on ground eventually flipping the aircraft on its top. I was alone in the aircraft and braking could of played a factor because I was braking in order to stay straight. The aircraft did not have any malfunctions upon landing. I did not sustain any injuries. I waited for approval from the FAA, who was in contact with the Baca County Sherriff, and then I pulled aircraft back to its main gear and pushed it into a hangar.

Trevor Shaw.
