Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

left wing bent spar, torn fabric, bent ribs; right wing tip torn fabric and bent ribs; small bend in both ailerons; landing gear bent back; prop damaged; nose cone minor damage

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I had left Copper Center, AK, strip (CXC) at 550 pm and was going to make a loop back to Gulkana Airport (PAGK). I was flying simply for pleasure, on a beautiful, clear day with no wind; I was flying just above tree-line elevation, fairly flat terrain, covered mostly with brush and some small trees; prior to attempting to land at an off-airport strip, I made two passes to check everything out; upon final, there was one small tree to the left of the strip; as I came in, I did not realize I was not centered on the strip (I was to the left a bit); my left wing caught the tip of the one tree that was on the left side; immediately I gave full power and was trying to recover and move the aircraft back to the right (center of strip); while doing so, I was too low and the left wing caught the tip of another small tree; then I basically went into the brush on the left side of the strip and came to an immediate stop. I was not injured in any way; there was no fire; basically, everything very quickly came to a standstill. I called a friend and he came to get me.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

I think if I had come in with a little more power, my nose would have been lower and I may have recognized that I was not completely centered on the strip

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No
