Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Engine mounts broken - engine nearly detached. Vertical stabilizer crushed nearly down to horizontal stabilizer. Lift struts buckled. Left wing nearly detached from fuselage. Both wings bent or rippled.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Departed White Signal, NM (20 miles sw of Silver City, NM) at 0900. Landed at Belen, NM at about 1100 to get fuel. No fuel available at Belen on Sundays. Proceeded north to Mid Valley airport took on about 45 gallons of fuel. All four tanks filled to capacity, 62 gallons. Departed Mid Valley about 1200 enroute McCook, NB where I intended to overnight. Throughout the flight visibility was unlimited and there was no turbulence exceptionally smooth flying. At 73 miles DME out of McCook I asked Goodland if they had 100 octane; they did. I made a long descent from 9500 asl turning to 300° as I reached pattern altitude about 4 to 5 miles out. I advised Goodland traffic of my location, heading and intentions. There was no response and no other heard radio traffic. A second transmission brought no response. There was a slight drift to my right so I prepared to make a crosswind landing. My passenger and I found the wind socks were difficult to see. They were low enough in location that they blended with the background building and terrain. The socks seemed quite faded. Immediately after touching down on the left main gear and tailwheel a powerful gust hit (see pilot's statement) and we ended upside down on the grass between the runway and the taxiway. During the entire approach I did not encounter any gusts or turbulence, only smooth air. The terrain at Renner/Goodland airport is very flat farm land.
