Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Bottom of rudder (plastic end cap) cracked. Lower end of rudder trailing edge bent approximately 5 degrees

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On the last of three landings (two stop and go, one full stop) on Runway 23L, and slowed to taxi speed, approaching Taxiway A7, I was instructed by Tower to hold short of Taxiway A to give way to a Cessna Citation exiting the FBO ramp at Taxiway R5. I looked to my left and located the other aircraft. When I looked back down the runway, I saw what I thought was the far edge of Taxiway A7. I incorrectly concluded that I had passed the somewhat faded yellow taxiway lead-off line and turned immediately to avoid passing my intended exit.

Upon making the turn, I found myself on the grass between Runway 23L and Taxiway A, just short of Taxiway A7. Not wanting to risk a propeller strike on the slight downslope, I used idle power and minimum brake application, applied full aft elevator and continued down the slope. Reaching the bottom of the slope, I noted that the propeller cleared the level-off and then felt a small bump as the tail reached the level-off.

I called Tower to inform them of my situation and declined their offer of assistance. Tower directed me to turn North on Taxiway A and exit at R6. The departing Citation was cleared to taxi to Runway 23L when I reported clear of Taxiway A.

Initial inspection of the aircraft on the ramp showed the bottom plastic rudder end cap to be cracked. No other damage was noted.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

In retrospect, it would have been better to accept the possibility of passing my intended exit rather than expediting the turn.
