Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

No damage to property.
Aircraft: Bent wing 3000. Top 6" of vertical stabilizer destroyed. Skins of all control surfaces distorted to indicate underlying damage. Firewall pushed back 1-2". Propeller blades bent. Radio glass/plastic broken. Antenna broken.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I was attending a fly-in at 51WA and approached the airport from the south at 2500' MSL under the SEA Class B airspace. After announcing my approach from the south on CTAF 122.9 I circled east of the airport outside the traffic pattern in a counterclockwise direction positioning myself on a 4 mile left 45 entry for runway 34. Calling my entry at this point I began my descent to be at 1500' as I entered the left downwind at midfield. I continued my descent, calling my turns to left base and final. I followed what I estimated as a 3 degree descent after turning final. I estimated my touchdown point at about three or four hundred feet down the runway which at that point there is a mild upslope. This may have been why I perceived that I was too high. In my haste to get to the flare elevation of 10-12 feet AGL I struck the turf hard and bounced. The same thing happened again and I believe that I made an initial effort at a go around with addition of throttle, with the plane stalling, again at about the same elevation. Inadequate rudder resulted in the plane ending about 15-20 feet off the runway on the right, inverted.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

Remedial flying with an instructor on
landings on turf/grass/short runways.
