Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

BENT STRUTS ON RIGHT SIDE OF AIRCRAFT, DAMAGE TO THE TOP OF THE RUDDER, CRACK AT THE TOP OF THE WINDSHIELD, DAMAGE TO COWLING

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Departed private airstrip at space test at about 10:35 am on 5/30/2016. Proceeded across the south end of Pyramid lake and followed on the east side of highway 447 to the Black Rock desert. Did one landing on the playa. Took off from the playa and flew to the Black Rock hot springs. Made one pass to assess the landing spot. Made the final approach and after touch down the wheels broke through a crust to mud beneath. The aircraft nosed over and onto its back. The passenger and I exited the aircraft. No injury. With the help of nearby campers we were able to turn the aircraft back upright and assess the damage. Bent top of rudder, 2 bent struts on the right side, a crack at the top of the windshield, and cowling damage. I checked the engine mount, the firewall, and the prop for damage and none was noted. Towed aircraft to the playa and taxied for a distance. I called my brother in California to bring new struts. We slept with the aircraft on the playa over night. In the morning I replaced both lift struts on the right side. Removed the fabric from the counterbalance of the rudder and removed a broken brace wire and straightened the structure. The counterbalance was covered with Gorilla tape, also the crack in the windshield was taped. Started the engine and did high-speed taxi test. Took off and aircraft performed as normal and I felt that the aircraft was safe to ferry home. Took off from the playa and followed the railroad tracks along the Smoke Creek desert, down to the north end of Pyramid lake along the west shore of the lake and back to space test.
