Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Minor damage to hangar on edge of runway. N8777 is a total loss; substantial damage to fuselage and left wing, then a fire destroyed aircraft.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Shortly after takeoff run started with tail up, aircraft began to drift left in heading and position relative to centerline. Counteracted with right rudder and while direction did correct with right rudder also noticed significant slowing in performance. Let off right rudder to reposition right foot off of - from impacting right heel brake. Before could reposition, runway boundary cone on the left was getting too close and rotated. While avoiding boundary cone, the rotation was too early resulting in uncontrolled flight continuing to head to the West impacting hangar roof and then ground in front of that same hangar. Either at impact or within a few seconds fire started in the lower left area of the cockpit near the firewall. Departed aircraft and called emergency services. Aircraft was engulfed quickly in flames. Fire Department arrived and extinguished flames and helped off load remaining fuel.

Local flight was intended, departure time was just before 6:44 am from 53U.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation
