Hey Adam,

I can't find the actual weight and balance that we did for that day and I don't have to books for the aircraft no more. But the weight of the me and the passengers was 430lbs in the front and 130 in the back. Please let me know if you need anything else.

Thanks

Hi Mr. Thatcher,

I am completing the final aspects to our NTSB safety investigation. Understanding the weight and balance of the aircraft is a routine part to our investigation.

Can you provide me with a copy of your weight and balance and takeoff distance information? If you do not have that, can you provide the estimated weight of your passengers?

Thank you,

Adam

Hey Adam,

It was nice speaking with you as well. I apologize it took a little time to get

some of the aircraft information. I have attached the completed form. Please let me know if there is anything else I can do to assist.

Thanks

Hi Colt,

Nice chatting with you. Attached you will find our NTSB Accident Report Form. Returning the form to my email address will work, as well as my fax number - [REDACTED]. The form does have a regulatory requirement to be complete within 10 days.

Again, I'm glad everyone was able to walk away, but I'm sorry about the airplane.

Regards,

Adam
