Spraying a field of peas. I had taken about 10 loads of chemical to spray. I landed on the truck around noon, took a load of approximately 80 gallons with 25 gallons of fuel. I lifted off the truck to go spray out the load. I flew straight ahead and dropped a bit to catch ground effect. The helicopter continued to fall, so I tried to gain more forward airspeed. I never gained lift from the ground effect and subsequently caught my boom and skids on the ground, causing the helicopter to flip forward and torque to the right.
