Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Visible damage: Steering wheel, left main arm.
Possible light.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I left Wright Brothers airport(KMGY) at 4:15(20:15Z) for Urbana Grimes field(I74).

While en route I tried to check the weather conditions on the AWOS(three times), and I was not able to pick up any information on the 118.325 frequency.

Flying from the South I followed the left traffic pattern inbound for runway 02.

I decided to go around in order to be certain of the wind direction by observing the wind sock.

On final approach, my speed was just above 65 kts/h.

While above the runway(02), I experienced strong winds that forced a hard landing.

Upon landing I was unable to steer the plane(no rudder control), with end result to enter runway 01 into the grass.

I managed to bring the plane onto runway 02 with great difficulty, exited the runway, I made sure my passenger was in good shape, secured the plane, and sought assistance.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

It would have been prevented by deciding not to land at this airport.
