Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

I was on final runway 36. AS I approached the runway, I pulled all power and pushed the prop full. As i approached the end of the runway I experienced an accelerated sink rate. I attempted to power up but the turbine engine did not have time. I touched down about 10 feet short of the runway in the tall grass. The right main gear sheared off as I made it on the runway the nose dropped and the prop struck the ground. The plane spun left and stopped in the west ditch next to the runway.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

Allowing myself plenty of runway in case of a sudden increase in sink rate.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No
