Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Caught fire, complete loss.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On July 1, 2016, I took off from Bountiful/Skypark carrying two passengers on an introductory flight. Northbound and over Lagoon, I turned to fly over Farmington Canyon as I had done on numerous previous occasions. Into the canyon, I experienced an unforeseen immense downdraft which was forcing the aircraft down towards the ground. Immediately I performed a right turn to escape the downdraft. When it became clear a turn was not possible, I turned back up the canyon. While doing everything I possible could to escape the down draft, it became very evident an emergency landing on the mountain road, would be necessary. I maneuvered the airplane into position and made an emergency landing on the Mountain Road. Before I could bring the aircraft to a complete stop, it skidded off the dirt road and down the embankment where it came to rest. Shortly after coming to a complete stop, a fire broke out in the cockpit. Both passengers and I made our way out of the aircraft and up the embankment to the dirt road where I waited for emergency crews.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

More horsepower, more altitude before entering the canyon, preformed the flight at an early morning or late afternoon time.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No
