Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Aircraft damage extensive. Detailed assessment pending.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Departed KAWO at 1500 Pacific on 07/16/2016, bound for W10, estimated flight time 10mins. W10 surrounded by tall trees, chose to land RNWY 34 due to less tree obstacles. This meant landing with a tailwind, but tailwind was minor (<10kts), so it was deemed acceptable. Approach was too high, and after touching down too far down the runway, an attempt was made to stop the aircraft departing the end of the runway. This was unsuccessful, and after departing the end of the runway, the aircraft struck a grass berm, then flipped tail-over-nose and settled upside down.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

A more strict short field approach, as well as an earlier and affirmative go-around decision would have prevented this accident.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No
