Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

I was provided the photos of the aircraft post accident. I have seen the aircraft post accident

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

We flew from Henderson (KHND) to Blythe (KBLH) and planned to return to KHND. Before taking off from Blythe I obtained a weather briefing, did a weight and balance, checked ASOS temp and did performance calculations. After rotation the plane was not producing sufficient power and not climbing as anticipated, the performance deteriorated, stall warning signal activated and I then lowered the nose and landed.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

In retrospect, I could have aborted the take off prior to rotation.
