INCIDENT REPORT-YOOYEON WON AUGUST 3, 2016

I departed from Chino airport Aug 3rd 08.50.

Destination was Jacqueline Cochran Regional. Airport.

ASOS said wind was calm. I decided to land at RWY 17 (longer than RWY 12) for my safety.

And I touched down runway 17 around 09:45.

At short-final approaching pitch and altitude was fine and air speed was 65~70kts (Aim airspeed is 65kts)

Because higher airspeed than usual, I flared longer than usual.

So I touched down softly airspeed was little bit faster though. And runway center line was under my left feet. So I didn't need to go around. Then I applied left rudder to maintain center line correctly. But aircraft was starting to drift to the left side. I almost lost directional control so I decided to go-around for safety. But aircraft went left over the runway before lift-off. OFF the runway was a dried-muddy surface, so it seems like just unpaved surface. I continued on that surface to try to take off again.

After then nose gear got stuck in the dirt, I was still at full throttle and aircraft flipped over propel first. .
