Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Nose gear, engine and propeller damaged. Aircraft totaled.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Attempted soft field takeoff at 7Y7 Belle Plaine, MN airport led to nose gear and propeller damage. The runway conditions (wet from previous evenings rain and small ruts) led to the aircraft bouncing into the air prior to rotation speed. That coupled with poor coordination led to loss of airspeed and control of the aircraft causing the nose to drop to the ground rapidly. No injuries reported and no substantial damage to the field (small patches of dirt kicked up). This was our second takeoff attempt at 7Y7. First takeoff and landing were uneventful.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

This accident could have been prevented with prior knowledge of runway conditions and additional training from the student pilot on short field takeoff techniques.
