Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

While flying Papillons up/down tour, which brings passengers to the bottom of the Grand Canyon for a short boat ride, I was just getting off of break. After walking around the aircraft I started up and flew a group down to the bottom, then picked up passengers and brought them up to the top. Once they departed the aircraft, I was instructed by base to head down empty and after getting the "Thumbs up" from ground crew, I picked up the helicopter into a hover. I started to back off of the landing pad into rising terrain, and backed up approximately 30 feet when the rear stinger touched the ground. I landed the helicopter back on the landing pad I took off from and shut down to inspect for damage where I found damage on the lower vertical fin.
