NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

flew over landing strip, went around, everything looked good, conducted landing procedure, went to add flare, lost visual due to sun glare, was ready to put in throttle for go around but felt wheel touch down to landing strip, cut power still no visual due to sun glare, hit landing strip, ran off runway in soft spot, left wheel dug in and flipped to left side, left wing dug into ground and flipped on left pilot side and teetered a bit and then settled. At the time of teetering I cut engine and turned everything off.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

unsure since it was the glare of the sun that caused pilot to misjudge landing
