NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I departed the beach at the Esker Stream Cabin (Wrangell-St. Elias Nat'l. Preserve) on a three-mile flight to a grassy field that I had landed at twice previously that morning. (lat N. 59 49.850, W. 139 48.950). Soon into the landing roll-out, I encountered water that caused the airplane to flip onto its back.

During the two previous flights, a puddle existed in the landing zone; the size and depth of which created no hazard to flight operations. During the five hour period between the second and third flight, the puddle depth increased from approximately $\frac{1}{2}$ inch, to greater than six inches.

The sky was clear, winds were light and variable, visibility exceeded 30 miles, with a 14°C Temp.

I landed the same direction, and in the same tire tracks I had used during the previous two landings.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

A more thorough pre-landing reconnaissance of the intended landing zone.
