Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Upon my return from Marathon, I was attempting a visual approach to runway 15 at X04. I observed a pretty good cross wind and the aircraft was handling just fine. Right at the time of flare and touchdown a gust of wind threw the alignment of the aircraft off. I decided to go around, I then pushed the thrust lever forward but at the same time the aircraft stalled and the right wheels hit the turf, on the edge of the runway, further exaggerating my misalignment. At that moment, the thrust I had just put in caught up with the aircraft and now I was heading down the embankment towards the hangers. I pulled the thrust back out, tried to regain control but the aircraft would not respond, resulting in the subsequent accident.
