Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

After landing on Interstate 20 successfully and while maneuvering the aircraft to the shoulder of the road, the aircraft struck a mile marker sign at the end of the right wing. This caused some sheet metal wrinkling near the flaps.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

My mission was to travel from Valdosta (VLD, 10:00 PM/EST) to Monroe (D73), my final stop. During my pre-flight, I calculated fuel based on my flight path with 45 mins of reserved fuel on board. I also planned to have Covington, Ga. (CVC) as my alternate airport in case of an emergency. During my VFR flight, I was diverted by ATC (flight following) to Dublin, Ga. due to weather, then direct on course to my final destination. Due to this diversion, I experienced fuel exhaustion approximately 8.3 NM from D73. I made the decision to divert to CVC (roughly 7.3 NM from location of fuel exhaustion). Upon diverting and gliding the aircraft approximately 4+/- NM, I was forced to make an emergency landing on Interstate 20. Upon landing the aircraft successfully without damage to myself or others, I maneuvered the aircraft to the shoulder of the interstate. During this maneuvering, the aircraft struck a mile marker sign that caused damaged to the right wing. Time of incident was approximately 12:00 AM.

RECOMMENDATION (How could this accident/incident have been prevented?)
