Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

Damage to rudder and vertical stabilizer

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

At approximately 10:10am central time the pilot departed Empty Pockets Flying Service near Wilson, AR for an aerial application near Bassett, AR. Around 10:30am on the sixth pass of third field, the vertical stabilizer and rudder made contact with an unseen powerline. The field lays at an angle to the powerline. The poles are hidden by trees on both sides of the field.

After the pilot realized the plane had made contact with the powerline, he flew to Osceola Municipal Airport where he made a safe landing and checked for damage. Upon inspection, minor damage to the vertical stabilizer and rudder were found.

The pilot completed the application with another plane.
