Description of Damage to Aircraft and Other Property <i>(Use additional sheet if necessary)</i>		
NARRATIVE HISTORY OF FLIGHT <i>(Please type or print in ink)</i>		
Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible. On wednesday 9th of June, my student and I went to fly at 11.30AM on N601FT. We were practicing landings for his first SOLO on runway 11. On the last landing, the seventh, my student started braking the airplane to much and the engine stalled. I managed to exit the runway on A5 (the last exit) but the airplane stopped over the holding short. I tried to re-start the engine by opening the throttle and crank it. On the second attemp I smelled burn and I looked to the cowlng and I saw smoke. I switched off the electrical equipment, grab the small fire extinguisher I had between our seats and rushed to the nose of the aircraft to try extinguish the fire while I was telling my student to exit the airplane immediately. I tried to open the right cowling door but the fire was already too big and I almost burned myself. I managed to extinguish the fire on the nose wheel and the lower part of the engine before I run out of fire extinguisher. I called Airborne dispatch to let them know what was happening and after hanging up I called 911. Maintenance personnel came right away and extinguished the fire. Minutes later fire fighters arrived and flush the airplane's engine with liquids.
