Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Prop bent, Tire flat, damage to fabric under tail, Outboard Elevator tip bent.
Other Property, damaged wire fence (fence was repaired)

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On 10-6-2016 at around 8:15 Passenger Jeremy Olson and myself Tyler Beyer, departed Q Creek Ranch dirt strip north of Hanna Wy. We flew over ranch property for about 2.0 hours. We needed to talk to personal on the ground and where unable to reach them on company band radio. I over flew a landing area witch was Hanna Leo Draw Rd. I estimated wind out of the south west, the road was east and west, I circled to the left and landed with a left quartering crosswind. at approximately 10:15 I touched down left wheel first and started the role out, The wind changed suddenly and we drifted to the right of the road, I attempted a go-around and applied full power, the right wheel dropped off of the road the aircraft turned hard to the right. Going though the Bar-ditch and through a wire fence. Coming to rest on its Two main gear and its nose.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

Pick a better landing area without a graded crown not next to a fence and into the wind.
