Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

A runway light was damaged. Both flaps, left wing from hitting runway light, undercarriage from impacting the runway, propeller from striking the runway.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I departed KRYW mid morning heading to KBMQ to practice engine out landings. On my 4th or 5th landing I was high and fast. I wanted to keep the training as realistic as possible because going around int a option with engine failure. I attempted to make the landing work and felt behind the airplane. As a result the landing gear wasnt extended and I impacted the runway gear up. In retrospect I clealy should have gone around. After impacting the runaway the airplane slid off the runway to the left impacting a runway light then coming to rest.
