

11/5/16

I MICHAEL NEESE WAS PERFORMING my Bi annual Flight Review with Richard Stockton of wings Flight school. Richard was very professional and thorough ground and in the air. We had performed several maneuvers and had done a SINGLE ENGINE Landing at Yolo mini airport. Upon departing yolo the power was pulled shortly after initiating a full power take off. on 1 engine. The Aircraft immediately Slowed Left. and LEFT the Runway where the NOSE GEAR collapsed. NO INJURIES were sustained. By
