NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Departed from Midland International Airport Approx 16:15 local time, for a Solo training Flight. After taking off I traveled approx. 15 miles to the Northwest practice field for flight training maneuvers. After completion of maneuvers I proceeded inbound to Midland International for a full stop landing on Runway 16 L. Once in the Airport area I was cleared to land on 16 L. I Executed ~~over~~ a straight in approach to runway 16 L. Upon contacting the ground the nose wheel struck hard causing bounce, which then caused further bounces which damaged the nose gear and causing the prop to hit the runway. After the second bounce I tried to go around but the prop was already damaged and was unable to get sufficient power to go around, at that time NOSE tire went flat and came to a stop, then I exited the aircraft
