☐ On-Ground
☐ Both Ground and In-Flight
☐ Fire at Unknown Time
☐ Unknown

Aircraft Explosion

- ☒ None
☐ In-Flight
☐ On-Ground
☐ Both Ground and In-Flight
☐ Explosion at Unknown Time
☐ Unknown

Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

Nose wheel broke off, nose strut damaged. Prop, spinner heavily damaged. Left wing + wing strut damaged. Vertical stabilizer and rudder bent. Left main tire flat. Windshield broken.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

While Attempting A landing on runway 35 @ Tri City Airport (366). A landing I have done 100's of times. I found myself 4' short and/or 10" lower then normal. I hit the end of the Runway, that has a 5-6" step up. The nose wheel broke off and the plane bounced up into the air. I realized I was short and added power, the plane returned to flight. I decided to go around. A fellow pilot + tenant at the Airport observed this and notified me of the missing nose wheel. I then decided to land on the sod parallel to the black top. I then did my best, short/soft field landing. Although somewhat soft, the plane still had just enough energy to nose over prior to coming to a stop, resulting in the above listed damage. I was alone in the plane and did not get injured at all. There was no damage to anything other then my airplane and my pride. Although I was a little bit short, the outcome would have been very different if the ground + black top would be even, not a 5-6" step up.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

Be more diligent in observing touch down point on the runway.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No

(If yes, list the name of the part, manufacturer, part no., serial no., and describe the failure.)
