NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Pilot intended to conduct 3 take off and landings in order to be current in the aircraft. Pilot took off on runway 20L remaining in left traffic for landing on 20L.

Pilot entered reduced light condition of late day without realizing and factoring in reduced visual cues as to height above ground. This was pilots first flight over snow since early April of 2016 (approx 10 months earlier) Pilot did not recognize the conditions as being flat light, reducing depth perception. Pilot never realized he was low on the approach.
