Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

right wing tip is cracked. rear right wing spar is bent near root of wing.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I made a approach to landing into Madill Airport and noticed I was too long to make the landing a touch and go. At that time, I decided to make it a full stop and taxi back. I exited the runway onto the ramp closest to runway 36. When i exited, I followed the yellow taxi lines to make a turn back to the runway to do a taxi back to runway 18. Due to poor lighting, I did not see the hangar and struck the edge of the hangar with the right wingtip while taxiing back to the runway. I did not realize that I hit anything and resumed the flight back to KGYI airport. When I landed and tied the airplane down, I noticed the wing damage and reported the damage directly to maintenance.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

Advise students to avoid short runways at night. Also, students should avoid dimly lit airports.
