Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

ENGINE/PROP/COWL/NOSE GEAR/BOTH WINGS WRINKLED/TAIL TIP

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Here is my summary of incident while taxiing after landing at 3B1 on 3-2-17.

I, Michael Levesque PIC of Cessna 172 N7450X was flying from KOLD to 3B1 VFR. I got weather briefing from KBGR before departing KOLD and also looked up the weather on Foreflight via iPad before departing KOLD. I recall knowing the winds were 320 at 14 gust 26 so I expected a bumpy ride. All went well no issues a bit rough but nothing alarming. Upon approach I check the automated weather to confirm the winds and they had not changed. I landed the plane on runway 32 I had a direct head wind no issues. I taxied down rwy 32 to the intersection of rwy 3-21. I took a right turn onto rwy 3 which created a quartering headwind from the left. So I used standard taxiing corrective measures which are to keep elevator in neutral position and turn yoke to the left which positioned aileron up. I went about 150 feet and felt a big gust of wind which lifted the left wing. At this point the plane rolled up on the right wing and propeller started hitting the pavement. Another gust hit which push/lifted the plane to edge of the runway at an increased rate of speed. When the front wheel hit the extremely hard compact snow it flipped the plane over on its back. I was the only person in the plane. If you need anything else feel free to contact me.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)

Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No
